

afm supplementary protection for alternative healing methods

Gentle medicine as a real alternative

The catalogue of services of the statutory health insurance (GKV) offers quite comprehensive protection. As a patient, however, you often want health care that goes beyond this. If you do not want to rely solely on orthodox medicine, you must take the initiative and choose a powerful complementary protection for alternative healing methods.

Our requirements

Naturopathic treatment

- Reimbursement of 80% of the invoice amount
- Maximum output of at least € 1,000 per year
- In addition to the alternative practitioner, the naturopathic physician is also accepted
- Billing according to the list of fees of alternative practitioners and Hufeland-directory¹

¹ The Hufeland-directory contains all naturopathic diagnostic and therapeutic procedures which are theoretically explainable and practically proven as well as teachable and learnable.
