

afm supplementary protection Basis for dental services

Good teeth can be expensive

The statutory health insurance (GKV) only covers certain, medically necessary services as basic care. You will therefore only receive a fixed subsidy for dental prostheses. You have to finance a high-quality restoration - also for tooth preservation and prophylaxis - yourself. Keep the costs for dental prostheses within limits and provide for a dental supplementary insurance.

Cost examples for dental treatment and dentures

	costs	GKV pays	excess
Professional tooth cleaning	€ 80-150	€ 0	€ 80-150
1 plastic filling	€ 100-150	€ 0	€ 100-150
1 inlay	€ 400-600	€ 200-300	€ 400-600
2 implants with bone augmentation	€ 5,000-6,000	€ 400	€ 4,600-5,600

Our requirements

- Reimbursement of at least 75% of the invoice amount for dental prosthesis
- Performance for inlays and implants
- Performance for plastic fillings as an alternative to cash register performance amalgam
- Optional professional tooth cleaning at least once a year
- Outstanding service quality
- Limited reimbursement in the first years of insurance as an instrument of stability

Our recommendations

Ein Stück Sicherheit.

Tariff - ZahnPRIVAT PRIVAT 75

- ✓ Reimbursement of 75% of the costs for dental prosthesis after advance payment by the statutory health insurance
- ✓ Reimbursement of 75% of the costs for dental treatment after advance payment by the statutory health insurance
- ✓ Professional tooth cleaning up to € 100 per year
- ✓ Sum limits : 1st insurance year: € 1,000; 1 st to 2nd insurance year: € 2,000, 1 st to 2 nd insurance year: € 3.000

The presentation of the service contents serves as preliminary information and is therefore greatly simplified. The individual pension proposal and the general insurance conditions are decisive.
